SUMMARY OF FINDINGS

UPDATED SERIES

Series updated since the February 1996 issue are: labour force, industrial disputes; housing finance, building approvals, building commencements; average weekly earnings; retail turnover; new motor vehicle registrations; and consumer price index. A feature article on ACT public library services is included on page 6.

NOTABLE MOVEMENTS

Unemployment	The trend number of persons employed in the ACT decreased in February 1996 to 157,600, a fall of 0.3% (500 persons). The trend unemployment rate in the ACT was 7.3% in February, unchanged from last month and the lowest of all States and Territories except for Northern Territory. The participation rate, while remaining high in the ACT at 73.4% in February 1996, declined by 0.3 percentage points from January.
Industrial disputes	In the year to November 1995 there were only 8 working days lost per 1,000 employees in the ACT compared with 85 working days lost per 1,000 employees nationally.
Housing	<p>The trend number of dwelling units financed in the ACT during December 1995 increased by 3.4% to 910 dwellings. The trend estimate for the value of commitments in the ACT in December 1995 was \$88.1 million, an increase of 3% on the previous month. Unpublished original data on the 'refinancing' component were: 150 dwelling units valued at \$11.4 million.</p> <p>The trend for the total number of dwelling units approved in the ACT fell 6.2% in January 1996 to 228. Nationally the total number of dwelling units approved fell by 1.4% to 9,914.</p> <p>The number of new residential housing commencements in the ACT increased by 4.3% in the September quarter 1995 to 337, compared with a fall of 4.2% nationally. The ACT also recorded an increase of 9.2% in the value of building commencements, nationally there was a fall of 5.5% for the September quarter 1995.</p>
Labour force — average weekly earnings	Trend estimates of average weekly earnings for the ACT continued the steady upward movement of the past two years. The average weekly earnings for November 1995 was \$635.50, an increase of 1.6% from the previous month. Nationally average weekly earnings increased by 0.6% to \$554.50.
Retail turnover	The trend estimate for retail turnover in the ACT for January 1996 was \$185.8 million, up slightly on the previous month's figure of \$185.3 million. Nationally trend retail turnover increased by 8.3% over the last 12 months compared to 4.6% for the ACT.
New motor vehicle registrations	The trend estimate for new motor vehicle registrations for the ACT in January 1996 was 1,089, an increase of 2.4% over December 1995, and 6.7% higher than for January 1995. Nationally the trend for total new motor vehicle registrations increased 0.7% for January 1996. This represents the third consecutive month of growth in the national estimates, but is still 4.9% below the peak level of April 1995.

FEATURE ARTICLE

USE OF ACT PUBLIC LIBRARY FACILITIES

Summarised below are the results on 'use of public library services' from the Survey of Travel to Work and Educational Institutions and Use of Library Services conducted in the ACT by ABS on behalf of ACT Department of Urban Services during October 1995 as a supplement to the Monthly Population Survey.

The questions on use of library services aimed to determine the characteristics of persons aged 5 years and over who use and do not use ACT public library facilities, and reasons for the non-use of ACT public library facilities.

Just over 45% of Canberrans (aged 5 years and older) reported having used an ACT public library in the 12 months to October 1995. The age groups with the highest library usage rate were the 15 to 17 year olds (74%) and 10 to 14 year olds (72.2%). Persons in the 25 to 34 year age group reported the lowest library usage rate at 32.5%. Females had a higher library usage rate than males for all age groups. Overall, 50.5% of females had used an ACT public library whereas only 40.1% of males had done so. Interestingly, for males the 10 to 14 year age group had the highest library usage at 70%, while for females it was the 15 to 17 year age group (87%).

The main reasons given for non-use of ACT public library facilities were: bought own books/CDs/videos or borrowed from friends (28.2%); preferred other activities/didn't want to use library (19.8%); too busy/not enough time (19.1%); and used another library (e.g. the National Library, school, university or workplace libraries) (31.7%). Both sexes reported buying own books etc. or borrowing as the most common reason for not using an ACT public library (males 25.1% and females 32.0%). However, for males the second most common response was preferred other activities/didn't want to use library (23.6%) compared with females whose second most common response was too busy/lack of time (18.4%).

Additional information on the use of ACT public library facilities is available on request. Results on 'travel to work and educational institutions' will be released in the next issue of *ACT Business Indicators*.
